A Double Strike? -

Railroad men and coal men
of striking together. They
may not do it—probably won't.
This country has not developed
in labor the solidarity that
exists in Europe. But the strike
is possible if not probable, and
it would not be pleasant. It
might be wise to get in your
coal, although that advice, of
course, is enough to raise the
price of coal by the retailer.

Mrs. Harriet Lucella McCollum, feminist and a psychologist, starts you. She says marriage should be made very difficult and divorce very easy, and she even advocates "temporary widowhood." She thinks there should be special marriage laws "to protect the exceptional woman." The church to which she belongs will make up its mind what it ought to do about it.

"All women are 'exceptional'." If there are fifty million women in the United States you would need fifty million marriage and divorce laws. If you followed the McCollum idea.

The feminist psychologist should know that marriage is new, human beings, men especially, are not used to it or fit for it. But they should make themselves fit, and all laws should tend in that direction.

One Harvard graduate, an intelligent one, discussing the suggested exclusion or limiting of Jewish students, said: "The Jews have a university of their own in Jerusalem. It is devoted to Jewish culture and Jewish ideas. If the Arabs poured in and swamped the Jews, the Jews would put them out."

Quite possible, but Boston's "Jewish University, Harvard is not Jewish university, and Jews are not Arabs."

The question is, shall a United States university, exempt from taxes and supposed to represent the American idea, give an account of itself?

Li Yuan-fung, the new president of China, wants democratic institutions and the abolition of graft. That sounds well, but words alone, as the lamented Theodore Roosevelt said, are not important. In addition to talking, President Li gives to public schools his entire salary, \$24,000 a month, to the way of perquisite and \$40,000 monthly in the way of "bonuses" (taken by his successor. In all he gives \$1,200 a month to the schools, and that is more than \$100,000 in a long time.

The regular salary of the Chinese president appears to be as much in three months as our President gets in a whole year.

The French are worried about a German military mission in Moscow. But worry won't do any good. Russia and Germany, side by side, more than two hundred miles, human beings with the same kind of troubles, are bound to come together sooner or later.

The way to meet that situation is to make possible for these two nations to exist and something get back to prosperity. The American attitude toward Russia and the attitude of Western Europe toward Germany, do not help peace.

FIELD MARSHAL WILSON SHOT BY 2 IRISHMEN

London, June 22.—(By the Associated Press)—Field Marshal Sir Henry Hughes Wilson was shot and killed outside his house on Eaton place, London this afternoon. Two assailants of the field marshal were arrested. A policeman who was near him at the time of the shooting was wounded. The field marshal delivered a speech at the Liverpool Street Station in the city this morning in connection with the unveiling of a war memorial. Apparently he had just returned home when the tragedy occurred. The Central News account of the tragedy says Field Marshal Wilson was stepping from his automobile a few minutes after 3 p. m. when two men suddenly appeared and opened fire on him with revolvers. Hewas struck by three shots, the account adds, and died almost immediately.

ILLINOIS MINE BATTLE RENEWED

Merrin, Illinois, June 22 (By the Associated Press).—A renewal of warfare in the strip mine of the Southern Illinois Coal Co. near Merrin was reported today. A report here said five bodies were being brought to Merrin. The miners brought in from the Chicago district are reported to have surrendered in their camp near the mine.

OPERATORS STRIVE TO BALK HARD COAL STRIKE

Pottsville, Pa., June 22.—Andrew operators are leaving no stone unturned save acquiescing in the miners' wage demands, to stave off the declaration of a strike in the hard coal region next week to replace the present suspension. A quick action movement is underway to get the men to accept arbitration. This comes after the announcement today that the miners had voted unanimously for strike action next week.

It's Collegians, Not Coppers, Who Have Those Big Feet!

Plattsburg, June 22.—One of the early surprises of the J. O. T. C. Camp being held here for six weeks is that college men have big feet. The quartermaster laid in a supply of the normal soldier size when the camp opened, but when Lieutenant M. M. Potter, in charge of shoe-fitting, lined up the students from fifteen colleges and prep schools, he soon ran out of the 7s and 8s and had to stop the distribution until more could be obtained. Ten and 11s were the rule. The biggest foot in camp proved to wear size 11 1/2, double E and the smallest 8-B.

FIELD MARSHAL SHOT IN IRISH STRUGGLE

SIR HENRY HUGHES WILSON

LENINE GIVEN LEAVE

Capitol Hill, June 22 (By the Associated Press).—A message from Governor Dummer to the House of Representatives has granted Premier Lenine a leave of absence until autumn on account of his illness. It is expected Commissioner Tupper, second vice-president of the council, will act in his stead.

The death of Field Marshal Wilson was announced in the House of Commons by Austen Chamberlain, the government leader, who moved the adjournment of the House as a mark of mourning.

Mr. Chamberlain said the Field Marshal's house had been broken into by two men, who carried firearms, and were now in custody, and that he had been shot dead.

An eye witness said that when the field marshal alighted from his car and was crossing the pavement the first shot was fired. The victim staggered and nearly fell.

He was reeling when the second and third shots quickly followed the first. Policemen rushed up, upon which the assassins turned their weapons on the officers, of whom there were four, two being seriously wounded.

Field Marshal Wilson had been under police protection for some time, as the authorities had reason to suspect an attempt on his life. Police men were at the door of his residence when his assailants approached and opened fire.

The names of the two men arrested were given as Connolly and McFadden. Sound of the firing brought many people to the scene. The two men made off, but were quickly followed. One of them, finding himself about to be overtaken, turned upon himself the revolver to which he had clung. The bullet took effect and the man fell, badly hurt, and was taken to a hospital. The second man was taken to a hospital.

ONE ARREST IN RHODE ISLAND BOMB PLOT

Providence, June 22.—Louis Frates was taken into custody today in connection with the bomb explosion which imperiled the lives of forty and painfully injured one man in the three-story wooden tenement at No. 33 Elm street.

No charge has yet been placed against Frates, who is charged by Victor Texeira, owner of the tenement, with making threats. Frates, also advised the landlord to get rid of tenants who were strike-breaking in the Jackson Manning Company mill, Texeira claims.

The landlord claims to have seen four men fleeing from the house after the bomb exploded in the lower front hallway.

WARNED TO QUIT WORK

The injured man, James Plus, was sitting in a room on the first floor opening off the hallway. He was thrown against the wall and showed up with broken bones, which inflicted deep cuts in his face, arms and chest.

He told the police that during the last few days he has received a number of threatening letters from strikers of the Jackson company, warning him that something would happen if he persisted in working at that plant.

The entire front of the house was blown out, while every window in the house was broken. The first floor was practically wrecked.

A huge crowd of people gathered in the street after the explosion. Police quitted them and prevented a panic, while inmates of the wrecked house streamed forth in their night apparel.

SECOND BOMBING

This is the second bomb outrage which is believed to be directly connected with the strike. A short time ago a bomb was exploded, under similar circumstances, in another tenement occupied by strike-breakers.

Only one person was injured.

STUDENT INJURED IN HAVERHILL FLAG FIGHT

Haverhill, June 22.—Principalington L. The time has been halted down the seniors.

Five-Cent Fare on L for Children Next Saturday

The Board of Trustees of the Elevated have voted to authorize the transportation of children under fourteen years of age next Saturday for a five-cent fare upon the same basis as will apply during the months of July and August, recently announced.

The action was taken because of the interest and expected attendance of a large number of children in Greater Boston to the welcome home exercises to take place at Franklin Park when the baby hippopotamus purchased by the children of New England for the Franklin Park Zoo will be presented to the city of Boston by Governor Cox.

STOLE TO LIVE, IS GIRL'S CONFESSION

Brooklyn, N. Y., June 22.—Miss Germain La Pointe, arraigned in the local Police Court for stealing \$750 worth of jewelry from her landlady, said in evidence that she had chosen stealing instead of immorality as the one way left of providing herself with the means of life.

An unfortunate love affair, she said, had left her in a sad condition. Unable to work, she was forced to turn to crime. With the necessity of adopting one or the other course of action, and "to rather steal," she concluded.

CRAMPS, PAINS AND BACKACHE

St. Louis Woman Relieved by Lydia E. Pinkham's Vegetable Compound

St. Louis, Mo.—"I was bothered with cramps and pains every month and had to go to bed and could not work. My mother always took Lydia E. Pinkham's Vegetable Compound for such troubles and they induced me to try it and it has helped me very much. I don't have cramps any more, and I can do my housework all through the month. I recommend you to my friends for female troubles."—Mrs. DELLA SCHULTZ, 1412 Salisbury St., St. Louis, Mo.

Just think for a moment, Lydia E. Pinkham's Vegetable Compound has been in use for nearly fifty years. It is the most perfect, pure, and superior medicine. The ingredients thus combined in the Compound correct the conditions which cause such annoying symptoms as had been troubling Mrs. Schultz. The Vegetable Compound exercises a restorative influence of the most desirable character, correcting the trouble in a gentle but efficient manner.

AUTO IN RIVER, TWO LIVES ARE LOST

Newmarket, N. H., June 22.—Two men, believed to have been Fred B. Southern, Newmarket member of the State Legislature, and William Boucher, employed by the Newmarket Manufacturing Company, were drowned when an auto crashed through a wooden bridge railing and dropped twenty feet into the mill pond.

The Lamprey River that feeds the pond is in flood, owing to the recent rains, and great masses of swirling yellow water engulfed the two men and their car, before the horrified onlookers could catch a swift breath.

Five young women, on their way home from a party, witnessed the accident. Two of them ran to the river and called the police and fire department.

Within ten minutes police and firemen were on the spot beginning to struggle for the bodies. Several life preservers were in the water.

John Hanson, a diver, braved the current shortly after the accident. He brought up the number plate of Mr. Southern's car. Hanson went down again and again, but failed to find any other trace of the missing men.

For several hours the search went on fruitlessly. It was finally abandoned for the time being, only to be resumed today.

Officials in charge of the working parties, however, believe that the bodies have been washed over the dam head and carried down the Lamprey River to Great Bay or Portsmouth.

At the home of Mr. Hanson it was said that the two men had gone out riding in a small car belonging to the legislature, and that neither had returned.

All that has been recovered so far is the spare tire and rim of the machine, which is floating in forty feet of water near the dam.

Representative Southern was about fifty years old and married. His friend, Mr. Boucher, was a widower and the father of several children.

Barrel Parade of Bathers Threatened

Atlantic City, N. J., June 22.—Two score visitors at a local hotel, incensed because of the order of the city authorities that mackintoshes must be worn over bathing suits while walking through the streets, threaten to form a parade and march to the beach escorted from back to knee in barrels.

MOTHER OF JUNE CASTLETON MISSING

Worrying over the sudden disappearance of her daughter, Mrs. John Simon, 100 W. 127 St., told street, mother of June Castleton, chorus girl, has mysteriously disappeared from home.

"I can not understand where my daughter has gone, and I believe that constant worry for the past two days has been such a strain on my wife's mind that she too, left home," said Glen, father of June.

CARROLL WORRIED.

"I met Dan Carroll, June's sweetheart, on Washington street, and he is also very much worried up over June's sudden disappearance. In fact we are all at a loss to know what possessed June to leave such a good home. She is anxious to marry Dan and knowing that he cannot be united in marriage until he receives his divorce from Jessie Reed, I assume that she wanted to get away from the publicity and strain of her love affair."

Mr. Glen said he did not believe that his wife knows where June is. Mrs. Glen was very much incensed with her daughter and has been in constant touch with her since she has been in Boston. The two were inseparable and when June left home and sent farewell letters to her mother it is believed that the mother became hysterical and set out to find her daughter.

TO HUNT SWEETHEART.

Mr. Carroll told Mr. Glen that he will have nothing undone until he finds his sweetheart. He will ask the police to assist him in locating her, but declared that he will not go to New York to resume his duties at a chocolate factory there where he is employed, until he locates the girl he is to marry after he obtains his divorce.

Mr. Glen said that the disappearance of June has brought much gloom in his household, and he is in hopes that she will appear at her appearance at the St. Nicholas street home, which will mean the reuniting of the mother and daughter.

Another search will be made by relatives of the family for her again today.

TART PAYS VISIT TO LONDON LAW COURTS

London, June 22 (By the Associated Press).—Chief Justice Tait visited the London Law Courts today with Sir Thomas Willeby Chitty, senior master of the Superior Court, and observed the methods of procedure in this English judicial body. He was introduced to London's most eminent judges and lawyers, who later tendered him a luncheon. Tonight he will be given a banquet by Sir John Simon and ladies of the bench and bar.

CUBAN NEWSPAPER ATTACKS U. S. MOTIVES

Havana, June 22.—La Nación prints an attack against the United States under a seven-column first page head, declaring that "hundreds of the American must be our new religion." The newspaper declares that gratitude for American cooperation during the last years of the revolution against Spain, which would have been very easy, has blinded Cuba to the sinister motives of the United States, which only intervened in the revolution to secure control of the island.

PUBLISHERS ENJOINED IN BABY HYGIENE CASE

Judge Hammond in Superior Court today issued injunctions against C. A. Gray and Gertrude K. Young and others, on behalf of the Baby Hygiene Association. The defendants are enjoined from publishing in the Commonwealth of Massachusetts any magazine or periodicals which would tend, by virtue of their name, to appear to be the publications of the association or its official organs.

"EDIT" ALLIES' REPLY TO AMERICA'S RHINE NOTE

Paris, June 22 (By International News Service).—The Inter-Allied Council of Ambassadors met at the Foreign Office today to "edit" the reply of the allied powers to the American note regarding the cost of maintaining the American Army of Occupation on the Rhine. The United States demanded a primary right to share in German reparations to defray the expenses of the American forces.

WEST VIRGINIA WIDOW SEEKS SENATE SEAT

Fairmont, W. Va., June 22.—Mrs. Iwetta Jewell Brown of Kingsport, remembered by politicians because of the ovation tendered her by the democratic convention in San Francisco, when she seconded the nomination of John W. Davis for President, has announced her candidacy for United States Senator subject to the Democratic primaries of August 1.

ENRAGED VICTIM SHOOTS ALLEGED BLACK HANDER TO DEATH

SLAYS ALLEGED BLACKHANDER IN REVENGE FOR Threats and Extortion! Woman passively wounded by stray bullet! Bagin Bessella, 28, in circle above, confessed to the police that he shot and killed Frederick Spirito outside the latter's North End barbershop because he had demanded him for money. Bessella and that he had already turned over \$200 to the victim, and that more was demanded. Mrs. Fumassio File (next) of No. 47A North Margin street, was wounded in the ankle by one of Bessella's stray shots. The shooting took place just outside the building at No. 59 North Margin street.

On the Trail of the Sleuths

Second Article on

Henry Ford's Jew Mania

DID you read "The Inside Story" of Henry Ford's Jew-Mania?

A few days after this article by Norman Hapgood came out, the June number of Hearst's International was practically cleaned off the newsstands.

Now comes the second installment—"On the Trail of the Sleuths"—even more startling. Somebody argued that the Jews led the Roman Catholics to attack the Union Club—one enterprising Russian wrote to propose that "the Pogroms should start late in the Fall!"

THE BROTHER of Josephus Daniels, the ex-Secretary of Navy, was the lawyer who acted for Mr. Ford—somebody forged an astonishingly life-like Protocol quoting him, among others, as saying some astounding things.

READ about this wild jumble of Tsarists, Ford Jew-Investigators, Roman Catholics, Masons, Pogroms, Protocols, Sinn Fein, Ku Klux Klan—and see if YOU can guess which documents are forgeries—and see if YOU can tell where the truth begins or ends!

"Terror and death are in the air; hate and fear are everywhere... Poor ignorant people have been set at each others throats in a great religious war. It is beyond belief that such intolerance could live in this XXth Century." Read in Hearst's International for July **Who's to BLAME in Ireland?**—Frazier Hunt's message direct from the heart of trouble.

UPTON SINCLAIR'S NEW NOVEL They Call Me Carpenter!

What would Christ do if He should return to Earth today? This is the question men and women—sincere or sneering—have been asking each other for two thousand years. Reverently, yet fearlessly, Upton Sinclair sets out to answer that question. Read the story of "Mr. Carpenter" and His adventures in our world of Jazz, Flappers, French Fashions and High Finance. It all begins with the stained glass window of St. Bartholomew's Church—in Hearst's International for July.

A LIBERAL EDUCATION

40,000 WOMEN PLEDGE AID TO SOLDIERS

CHICAGO, N. Y., June 22.—Former service men out of work and unable to obtain hospital treatment have won the sympathy of 40,000 American club women, who today pledged to cheer them on all year, turned soldiers' wives, with the view of seeing that they get fair and high living treatment.

This is the latest development at the big convention of the General Federation of Women's Clubs. Mrs. George Plummer of Chicago was named head of the committee to carry on peace time work among former service men. Each of the 40,000 women's clubs, representing 2,000,000 of the nation's most prominent women, will contribute the one thing to the organization. The work will be done by districts, and jobs will be soon found for the needy.

Mrs. George Minot Baker of Massachusetts and Mrs. George (Jean) Baker of the Democratic women in Illinois, have come to the defense of the poor little flapper whom the general federation seeks to place in the guidance of Uncle Sam by the proposed enactment of a Federal law for the reformation of marriage and divorce legislation.

"We must affirm our faith in the dear, little, untrained flapper," said Mrs. Baker. "As to the address, I prefer, in all any worse than a skirt we used to drag through the mud as hold up with one hand while we carried bundles with the other."

Mrs. Thomas C. Winter, national president, voted the statement that the greatest harm that can come to a nation is the alienation of one generation from another.

The proposed amendment to the marriage and divorce laws of the nation is still the big issue at the convention. It would prohibit marriage for a girl between sixteen and eighteen, and a boy between eighteen and twenty-one without written consent of parents or guardian.

Medical certification prior to marriage publication of banns, and the revoking of the custody of the children in the mother, are some of the outstanding points.

Nary Garret has one of the speakers, said "I am here for a real fight. I am going to have a lot of fun. Mrs. Hendricks (Hendricks) represent the National Board of the Y. W. C. A., is here for the conference in the interests of the girl reformer.

Another arrival is Mrs. F. J. Garret, representing the American Women's Clubs at St. Louis, Mo.

GRANT HEARING TO BOY JAILED FOR 10 YEARS

A boy of 19, sentenced by Judge Frederick Woodch to spend 10 years in State Prison after the theft of a cigarette and candy from a grocery store, may come out of jail still a young man as the result of agitation in his behalf.

He is Joseph Miller of Lynn who has spent the past year and a half at Charlestown Prison. Along with others who felt severe punishment had been meted out to him have worked incessantly for his pardon.

Their efforts have at last met with partial success in the appointment of a chairman of the State Prison Board granting the 10 years sentence to the boy of the prison.

Rev. Howard R. Smith, pastor of the church, is the chairman of the board.

Double Wedding Is Planned by Sisters in Dorchester

Two Dorchester sisters have filed marriage intentions at City Hall and will be married in a double wedding ceremony the latter part of this month.

The girls are Gertrude E. Berlin, thirty-four years old, a telephone operator, of No. 36 Crescent avenue, and her sister, Anna T. Berlin, twenty-eight years old, a clerk, of the same address.

Gertrude is to marry P. Henry O'Brien, thirty-two years old, an assistant field superintendent and well known around Boston.

Anna will be united in marriage to Myron J. Connor, twenty-nine years old, a clerk and paymaster, of No. 116 F street, South Boston.

The Austin Square Congregational Church, Lynn, has led the movement, a special feature on the occasion of the wedding of Rev. Mr. Smith.

MORSE'S SON WINS STAY OF EXTRADITION

The hearing which was granted Benjamin Morse of Boston last night of Charles W. Morse, in his fight against extradition to New York on conspiracy charges, was continued to next Wednesday by United States Commissioner Hayes, after Morse's counsel raised points of law which the Commissioner wanted time to consider.

The defense offered by Attorney Nash Blackwood, who appeared for Morse, centered about alleged facts in the identification on the indictment returned against him. The attorney, whose plea occupied ten hours, asserted that Commissioner Hayes could not find probable cause to order Morse's removal to New York because of errors in the bill.

LOWLY RED SOX AND BASEBALL WEATHER RETURN TO BOSTON

DOFFY FIGHTS TO GET OUT OF CELLAR

By NICK FLATLEY.

Sombody must use the darning needle on the Red Sox promptly and efficiently, or the walk-around hose will be ready for the ragging.

The club staggered home today for a rest after a disastrous Western tour. The boys dropped 12 out of 19 games, and buried themselves more or less firmly in the cellar.

Escape from the dungeon isn't impossible or anything like that, but it will take a decided brace of better general performance than was the daily custom on alien orchards.

The Sox have hit the ball hard enough, but their pitching hasn't been even close to the mark, and the great collection of slugs in the univers can't win when the other fellows keep pounding out more runs.

The Tigers, who used to be regular prey, have been especially deadly to the Doffy entry this spring, cleaning up the series here, and smashing things to generally in Detroit. It has been quite a while since the Sox came back from the West with so many arrows of defeat sticking in their weary frames.

Rube Luth's latest revival meeting has robbed the local club of a chance to collect some real money from a curious. The big turn-out of folks are inclined to spell the latter word in sugar fashion, was on the sheet when the Yankees were here before, and now he can't track in the garden until Monday.

Boston fans would flock out to look over the big hitter, just to get their own skin on what was supposed to be able to do in the pursuit race that Kennedy Williams is leading him.

The Batter has slumped in popularity as a cub stick in a panic. His up-and-down has distressed the general run of fans, except perhaps in New York. The Sox's initial punishment was looked upon lightly, and the populace was ready to cheer him as lumpy and lively as ever, but he showed any sign of realizing that the situation was a little blunter than h mself.

But the big fellow evidently thinks he's still cock of the walk, and all he needs to do is exist about once he is obliged to slap another long arm across on him. Fighting for the breaks is expected of a good ball player, but smugly bailing is something else again.

Bill Clement is easier to be friendly with than a bird with a million dollar collar. He was a great pitcher, himself, knows how players feel, and is willing to make a good out for his prospects outside. We have watched William perform for quite a few years, and have never seen him mixed up in any kind of an argument.

Bad Slump of Yanks Has Peeved the Bambino

The bad slump of the Yankees and failure of the forty fives to scale the barriers with the old regulars have evidently peeved the Ruth party, so that all common sense and idea of proportion have popped right out of him. The husky youth will be doing the game, and his club, not to mention himself, a whole lot of good. If he settles down, forgets the past and gives value for the \$50,000 or so he pulls down annually.

Manager Duffy hasn't relinquished hope by any means. He points out that his team is only one of four games back of the first division, and that he can be bridged by any sort of a winning spree.

With the club at home, and a chance for morning exercise, Hugh may get his pitching corps in working order. The Sox seem to attract good weather to their parts, and for that reason, if no other, the game will be glad to welcome them back. Storms and the Braves are a tough combination for our early summer.

The Duffs just finger around long enough to get their breath, going away for a series after concluding with the Yankees Monday. Then they return for an extended season, entertaining all the western outfits at the Fenway. The invaders were entertained royally the last time, and that a enough for one year.

Not even the well known corner's guard will march to the ball lot unless some kind of a victory streak is broken open.

**REVERE TO MEET
SALEM TEAM**

The Revere City baseball team will entertain the strong Salem Town team at Curtis Park on Sunday afternoon. Charles Hoffman, better known as a name among the sporting fraternity as "Red" is slated to go on the mound for Revere City. This sterling youngster, along with Johnny Murphy of the beach city, has been twirling a great ball. The backstop work is being handled by Rosser and Wall.

Jack Barry, boss of the Witch City nine, will send Chick Davis to the pitching line for his team, with Melrod behind the bat.

What the Sports Think of Ruth Upheaval

Following are the opinions of the way they have lately. If they don't hurry, they'll be down shaking hands with the rest of their team the last lot.

FANS EVERYWHERE—We're sick and tired of Ruth, anyhow. The guy would be a whole lot better if they kept him out all year. There's a horn too much noise about him this season.

AT RICE LANDS—Dan is still 34 days behind my record. When he catches up, perhaps I'll take a turn again. Looks like I had the right idea.

JAWN DEMPSEY—My monicle. This fellow Johnson must be a blooming fine feller. Two socks, and he just a kid out for three days on each sock.

BILL DINKEN—I'm ready to suspend him any time, and when I do, he'll know it. It's a long time since I've been in there, but I guess I can still hit 'em when they're good.

RED SOX PITCHERS—What difference does it make? You'd think every club had nine Ruths in there from what happened to us on the last road trip. We should worry about him.

THE NEW YORK GANG—Maybe the Yanks can wait a free now that the big B m is out there. It's a bit cinch they can't lose any more than he can.

Josh Billings as a Prophet on Tires

YOU may recall what Josh Billings had to say about cats!

"The hardest thing in everyday life, is to pick out a good cat, not because cats are so scarce, but because they are so plenty."

If this Yankee philosopher of the 70's had been talking about tire situation today he couldn't have stated the case any better.

There are 200 or so different brands of cord tires.

A variation of standards up and down the scale hardly duplicated by any other article of human use.

Selling methods have their own variety also. Some dealers encourage the car-owner to buy a tire he doesn't know much about by offering an "inside price" or "wide discount."

Other dealers hold "sales."

These don't satisfy the brass tacks tire user. His habit is to be sure of the quality first. Then when he asks the price he knows how much of his dollar is related to money's worth.

Prices on United States Passenger Car Tires and Tubes, effective May 8th, are not subject to war-tax, the war-tax having been included.

GEORGE WARD IS PREPARED TO TAKE OVER BRITTON'S JOB

NEW JERSEY FIGHTER POSSESSES CLASS

By JACK CONWAY.

George Ward, water-tight champion of New Jersey, is in our midst. He slipped us the information that he will start his first fight on the 11th inst. at the New Haven arena. Ward is a native of New Jersey and is a native of the Jersey City area. He is a native of the Jersey City area. He is a native of the Jersey City area.

Ward looked the part of a regular fighting man as he whirled through a stiff workout at Kelly & Higgins' gym. He got a left hand which is very bit as good as the one possessed by Mike Shavlin, while his right looks forth in true Dempsey style.

What will I do to Shavlin? remarked the invader. "Just hand him a sweet wallop so that I'll properly introduce myself to the fight fans in this part of the country."

"I'm told Jack Britton got his real start when he knocked out Edie Goode in the first round of the fight between the two champions at the New Haven arena. Ward is a native of the Jersey City area. He is a native of the Jersey City area. He is a native of the Jersey City area.

Lawrence Strike Probe

Trouble Should Be Arbitrated If Possible. In Any Event Public Should Know the Facts.

We are glad that the State Board of Conciliation and Arbitration has determined to make an investigation of the facts concerning the Lawrence textile strike.

This textile strike is hurting New England, and it is hurting the country. If it can be arbitrated it ought to be arbitrated. In any event the public ought to know the facts concerning it.

These textile industries are great productive industries. The people of America are called upon to pay huge sums every year in the prices they have to pay for goods manufactured by these textile mills through the operation of the protective tariff, upon the alleged ground that we must protect American standards of living in these industries against the competition of foreign labor having a lower standard of living.

Every industry which enjoys the protection of a protective tariff is clothed with a public interest which makes it the right of the public to know the facts when that industry is in controversy with its labor.

The Boston American does not undertake to be the judge in this case, but does undertake to say that the public ought to know the truth about the situation as quickly as possible through arbitration or a public investigation.

This investigation ought not to be dragged out. To delay would be to defeat its purpose.

We Should Collect Our Debts and Pay Our Soldiers

Attracted by the headline that one Edwards, president of the Rhode Island State College, had advocated in his baccalaureate address the cancellation of the debts of the allies to the United States, we read the address to examine the gentleman's premises. Before we reached this point we continued to read it, not to discover how he reached the conclusion that the allies ought not to pay their debts to the United States, but how he happened to be president of a college.

We find that it is less difficult to discover a legitimate basis for his opinion than we ought to cancel what other nations owe us and that our own people remain too poor to pay the soldiers' bonus than to discover how he happens to be president of a college.

It will be many a long day before American people are foolish enough to allow hysterical men like President Edwards to persuade them to cancel the legitimate debts of the European governments to our people while those governments are swash-buckling around Europe, maintaining great navies and armies and doing things which continue the possibilities of war and make us continue to remain armed.

It would be much better if gentlemen like President Edwards would send out in their messages to the world that it is the judgment of America's intellectual class that the nations owing America money in a war fought to give the nations of the world the right of self-determination should heed that right everywhere and stop spending money on great armaments in the course of denying the right of self-determination as Great Britain is now doing in India and as they all are doing in Africa and Asia.

If the allies were absolutely loyal in act and thought to the principles on which they pretended to have fought the war, they could pay their debts and be much better off. The best thing America can do is to make them pay their debts because they cannot pay them and swash-buck, too.

Delaying Soldiers' Bonus

For the Tariff—Without Helping the Tariff in Any Way

It is curious that the Republican caucus shies at the soldiers' bonus bill every time it sees it or its shadow across the Senate floor. This bonus bill has already been completely drafted and is in form so that it can pass the Senate in an hour, while the tariff bill is in the throes of a regular old-fashioned tariff fight, every one of its hundreds of schedules being debated, snarled over and torn to pieces.

Senator MacCumber, who has charge of the tariff bill and who has an election on his hands and knows the temper of his people, urged that the bonus bill be given priority over the tariff bill. His argument was simply, that the tariff bill was in the course of bitter controversy while the bonus bill was supposed to be merely waiting enactment. Why should we delay the bonus bill when it can be passed without delay for the tariff bill, which will be scarcely benefited by putting it ahead of the bonus bill? Why should we injure the soldiers when we can just as well not be unjust to those who are seeking the benefits of the tariff schedules.

But apparently the soldiers' bonus bill has been set aside for the tariff bill. We are very sorry.

The last Republican national platform promised the soldiers' bonus bill among the earliest pieces of legislation for which the Republican party would be responsible to the people.

But since the promise was made and the people accepted it and gave the Republican party power the bonus bill has been kicked about like a football. Whenever it is approached the goal, some Republican leader would give it a boot out of bounds. Of course, the soldiers who are said to have saved the country while they were fighting look on with contentment if they are stupid, and with contempt if they are intelligent.

Mayor and Council Firm

Continue to Aid Boston American in Fight to Reduce Electric Lighting Charges

Mayor Curley and the City Council are continuing to aid the fight of the city and the Boston American to reduce the electric lighting charges in the metropolitan district.

It is rather curious that no other city or town in the district has volunteered to aid Boston and the Boston American in carrying on the fight, which benefits their citizens equally with the citizens of Boston. However, Boston generally leads in works of faith.

It is encouraging to know that Mayor Curley and the City Council remain staunch, for that is practically all that is necessary to assure the success of this contest.

New Class in Art

Editor Boston American:

The School of the Museum of Fine Arts has just taken a step of most vital interest to all art lovers, for it has made it possible for all such to gain a good start in drawing and painting by home study through a new class just formed.

This decision was due to a year's trial of new methods of study, whose results have amazed all who see them. These results will be in the view of the first week in July in the Art Museum.

ANSON K. CROSS.

What Is He Up To?

Editor Boston American:

What is the reason that someone does not call the bluff of the Hon. W. J. Bryan in this Bryan-Jobson controversy? For bluff and only bluff it is. It is not a case of educational discussion—especially with Mr. Bryan—and the public are sickening of it, but it is one of mudslinging by Mr. Bryan and his traitors.

Mr. Bryan is a politician, and a politician never stings the truth. The political tact is only a bluff to attract attention, while the talker is doing something else.

Mr. Bryan does not believe what he says; what he is actually up to is S. M. F. I. D. Woonsocket, R. I.

Bad Harbor Odds

Editor Boston American:

Once upon a time the people of Boston and the surrounding cities were wont to pray during an intensely hot spell for the cooling east wind, but now the prayer is "Send not the east wind, Oh Lord." Why?

Any one who is cured with a normal olfactory nerve finds the best preference to the unbearable odor that pollutes the countryside from Boston to Hingham and inland for fifteen miles.

If the fetid fumes in the harbor and at Hingham, together with the oil refining plant at Fall River, cannot be removed to Greenland or some other desolate region, please start something in the way of desodorizing these places. In South Boston the Jew voters build villages have circulated petitions to have something done in the matter of alleviating the nuisance, as they are unable to keep their noses open on account of the odor. CARL GUSTAFSON, Quincy, Mass.

DO IT NOW SLOGAN TYPICAL OF AMERICA

By Dr. Charles Fleischer

Editor Boston American:

Typical of America and Modernity is the slogan of our time: Do it Now. Practically it says: Never mind the past, don't let it hinder you; don't worry about the future, it will take care of itself if you take care of the present; don't apologize, don't hesitate, don't postpone; but—Do it Now.

Partly at least, it was involved in the Declaration of Independence—this respect for the present. The Revolutionary fathers, in undertaking to set up self-dependent national housekeeping, fairly defied tradition and forever forfeited the Do-It-Now idea. For they asserted both the infinite faculty of human nature and the capacity of average humanity to conduct its own affairs at any stage of the human game.

Whatever may have been the fashion in government for long ages past, here was a group of men who dared to start a new style. Once only kings could imaginably do so, and even then only a few people who believed they could govern themselves.

Indeed, so impatient and persistent were they with the new fashion that the American style of government has duly become fairly typical.

And Lincoln's brave democratic dictum has become a political, moral, and economic commonplace—namely, that no man and no nation is good enough or wise enough to rate another person and another people against their will.

Of alleviating the nuisance, as they are unable to keep their noses open on account of the odor. CARL GUSTAFSON, Quincy, Mass.

Jews at College

Editor Boston American:

I agree with Mr. Waterston that Mr. Dinkin was a truly extravagant in saying that the non-Jews would say to them, "Why don't you get to your own college?" just as the Catholics in the past have been told to go to Holy Cross or B. C. Having been told to go to a college, doesn't necessarily have to force a 100 per cent. attendance in the

IS FRIEND HUSBAND GETTING A SQUARE DEAL?

Many wives do not realize that when their husbands feel in every minute they spend in their home some work is found for them to do about the house, that when you reward every moment by being forthcoming with your husband's help, you are doing him a square deal.

Good wives will not do as many husbands do who should about the house and are disagreeable if their husbands complain when asked to help them out.

More men prefer to do a square deal than do a half and half deal around home, especially if it is work a woman ought to have done earlier in the day.
